

ISABEL YOUNGS

izzyoungs@gmail.com | izzy-youngs.com | (775) 420-1217 | Washington, DC

EDUCATION:

Georgetown University, Washington, DC

M.P.S. *summa cum laude* in Urban and Regional Planning, August 2021

- *Concentrations:* Housing policy, data analysis, spatial analysis, quantitative methods
- *Awards and Distinctions:* Chair, 2021 Graduate Planning Society; 2020 Georgetown Global Cities Initiative Graduate Fellow; 2021 Community Builder Award; 2020 Geospatial Prize.

University of Nevada, Reno

B.A. *cum laude* in Political Science and Communication Studies, Fall 2016

PROFESSIONAL EXPERIENCE:

Georgetown University, Massive Data Institute, Washington, DC

Research Specialist, August 2021 – Present

- Translates and presents high-level research findings and policy recommendations to funders, stakeholders, and the public through compelling seminars, blogs, reports, infographics, and presentations.
- Conducts research on place-based indicators, population measurement modeling, ethical data governance, and administrative data linkage.
- Creates interactive and data-driven dashboard visualizations utilizing Esri and Tableau to inform data users on the utility and issues with various administrative data sources, primarily census data products.

Georgetown University, Massive Data Institute, Washington, DC

Project Manager, October 2019 – August 2021

- Served as an effective project and product manager across several programs, assisting Principal Investigators in completing grant proposals, developing budgets, and outlining work plans for deliverables.
- Reviewed applications, hired, onboarded, and supervised over one dozen research assistants for the unit and coached them on how to contribute to tasks that aligned with their interests, connecting them to growth opportunities relevant to their research interests.
- Monitored the staffing and financial components of research projects in a multi-million-dollar project portfolio to meet contractual and reporting requirements by various public and private funding entities.

Georgetown Business Improvement District, Washington, DC

Data Science Intern, May 2020 – July 2020

- Analyzed location, demographic, and business data from proprietary and open data sources to assess the BID's retail and office market performance as well as visitor and local resident transportation behavior.
- Automated the collection and visualization of bikeshare utilization data which leveraged the Capital Bikeshare API endpoints and referenced the results into a Tableau dashboard.
- Designed, built, and launched Tableau dashboards to assess and visualize major financial trends in the Georgetown BID to contribute to economic development and COVID-19 recovery approaches.

Urban Institute, Office of Technology and Data Science, Washington, DC

Academic Intern, January 2020 – May 2020

- Conducted a field scan to synthesize case studies and scientific literature for a report on equity promises and Smart City technology programs in public administration.

- Wrote dozens of briefs on various Smart City and equity initiatives around the country, comparing how public procurement and administration practices affected equity promises.
- Contributed to the development of a bias assessment tool by using R to spatially join points and polygons to census tracts, which automatically generates reports on the demographic bias of data sets.

The Lockard Group, Carson City, NV

Legislative Assistant, February 2019 – June 2019

- Developed and carried out a legislative agenda by lobbying state lawmakers, analyzing legislation, suggesting amendments, providing testimony, tracking bills, and writing reports.
- Built a broad legislative coalition through strategic partnerships to advance the legislative priorities of clients, including hospital worker protections, eviction record sealing, affordable housing development streamlining, a low-income housing database, tenant protection laws, and legislation increasing state contributions to the Low-Income Housing Tax Credit fund.

Truckee Meadows Regional Planning Agency, Reno, NV

Intern, January 2019 – June 2019

- Analyzed and prepared revisions for the Truckee Meadows Regional Plan update's draft policies to translate a regional vision into specific, actionable, and measurable policies related to population growth, regional form, public facilities and services, natural resources, and regional coordination.
- Administered and preserved the administrative record of Regional Planning Governing Board and Regional Planning Commission meetings, producing complete and accurate documentation in transcribed minute reports.
